Business Analyst | Functional Consultant

nishitamohanty08@gmail.com | +91 7894861249 | linkedin.com/in/nishita-mohanty

PROFESSIONAL SUMMARY

Business Analyst with 2+ years at IBM Consulting supporting international B2B enterprise clients on Azure cloud-based implementations across the full engagement lifecycle, from requirement gathering through configuration, UAT, cutover, go live, and hyper care. Experienced in Order-to-Cash (O2C) and Procure-to-Pay (P2P) process analysis, post go live change request delivery, and leveraging SQL, Excel, and BI tools to analyze business data, build dashboards, and generate actionable insights for enterprise stakeholders. Skilled in KPI tracking, reporting automation, risk visibility to leadership, driving value-based executions, and collaborating with business and product teams to drive operational improvements.

EDUCATION

Silicon Institute of Technology

B.Tech, Electronics & Instrumentation Engineering

Bhubaneswar, India

2019 – 2023

WORK EXPERIENCE

IBM Consulting

Business Analyst & Consultant

India

Feb 2024 – Present

- Managed partner and senior stakeholder relationships across 20+ international B2B enterprise clients spanning multiple regions worldwide, in fast-paced consulting environments, independently driving alignment on requirements, timelines, and outcomes achieving 100% requirements traceability and full business sign-off.
- Conducted structured research and data analysis using SQL and BI tools across multiple client implementations, surfacing KPI insights that improved operational efficiency by 15% and directly informed leadership-level decisions.
- Built Power BI and Excel dashboards tracking 6+ operational metrics, reducing manual reporting effort by 25% and enabling real-time data visibility for business and delivery leadership.
- Coordinated across 4+ cross-functional teams (Product Management, Engineering, QA) and external international stakeholders to collate information, deliver insights, and drive partner engagement initiatives translating findings into structured functional specs and user stories.
- Led As-Is/To-Be process mapping and gap analysis across 5+ workflows using research tools and stakeholder interviews, delivering communication-ready insights that reduced ambiguity for senior decision-makers.
- Owned post go live change requests end-to-end on Azure cloud-based implementations through configuration, testing, cutover, and hyper care phases, writing SQL scripts for data gathering and system configuration to support Procure-to-Pay (P2P) and Order-to-Cash (O2C) workflows.
- Ran UAT and client shadow sessions, delivering hands-on end user journey training that drove product adoption and validated value outcomes against agreed KPIs.
- Proactively flagged delivery risks and change request status to engagement leadership, maintaining transparency and keeping senior stakeholders informed across the project lifecycle.

PROJECTS

Distributor Onboarding Workflow Redesign | IBM Consulting

- Conducted root cause and gap analysis on an existing B2B onboarding process; identified inefficiencies and formulated structured recommendations that translated into a self-service solution reducing turnaround time by 30%.
- Authored business requirements documentation and insight memos for senior international stakeholders; independently led structured UAT cycles achieving full business sign-off with 100% requirements traceability.

Shipment Visibility & Layout Personalisation | IBM Consulting

- Led stakeholder research to surface a recurring operational pain point around data visibility; translated findings into prioritised feature recommendations that reduced navigation time by ~40%.
- Produced functional requirements and stakeholder-facing insight summaries, demonstrating strong written communication skills validated outcomes improved overall workflow efficiency by ~35%.

ACHIEVEMENTS

- Participated in an IBM-supported social impact initiative, contributing to building products from scratch for a community fundraising drive, personally raising more than \$100 towards a collective donation goal through end-to-end effort from ideation to delivery.
- Acknowledged by multiple international clients for outstanding engagement delivery, receiving formal appreciation for translating complex business needs into effective solutions with measurable impact.
- Recognised for cross-functional collaboration and initiative within IBM Consulting, contributing beyond core project responsibilities to drive team-wide engagement and knowledge sharing.

CERTIFICATIONS

- IBM Business Analyst Professional Certificate — In Progress (Expected September 2026)
